Landowner

Problems & Solutions

Problems

- Owns LAND but doesn't know what to do with it
- Wants to promote the LAND
- Wants to monetize the LAND

Solutions

- To make use of the LAND
- The NFT artists will promote the LAND by using social media.
- To get monetized by advertising

To every problem; there is always a solution.

Artist

Problems & Solutions

Problems

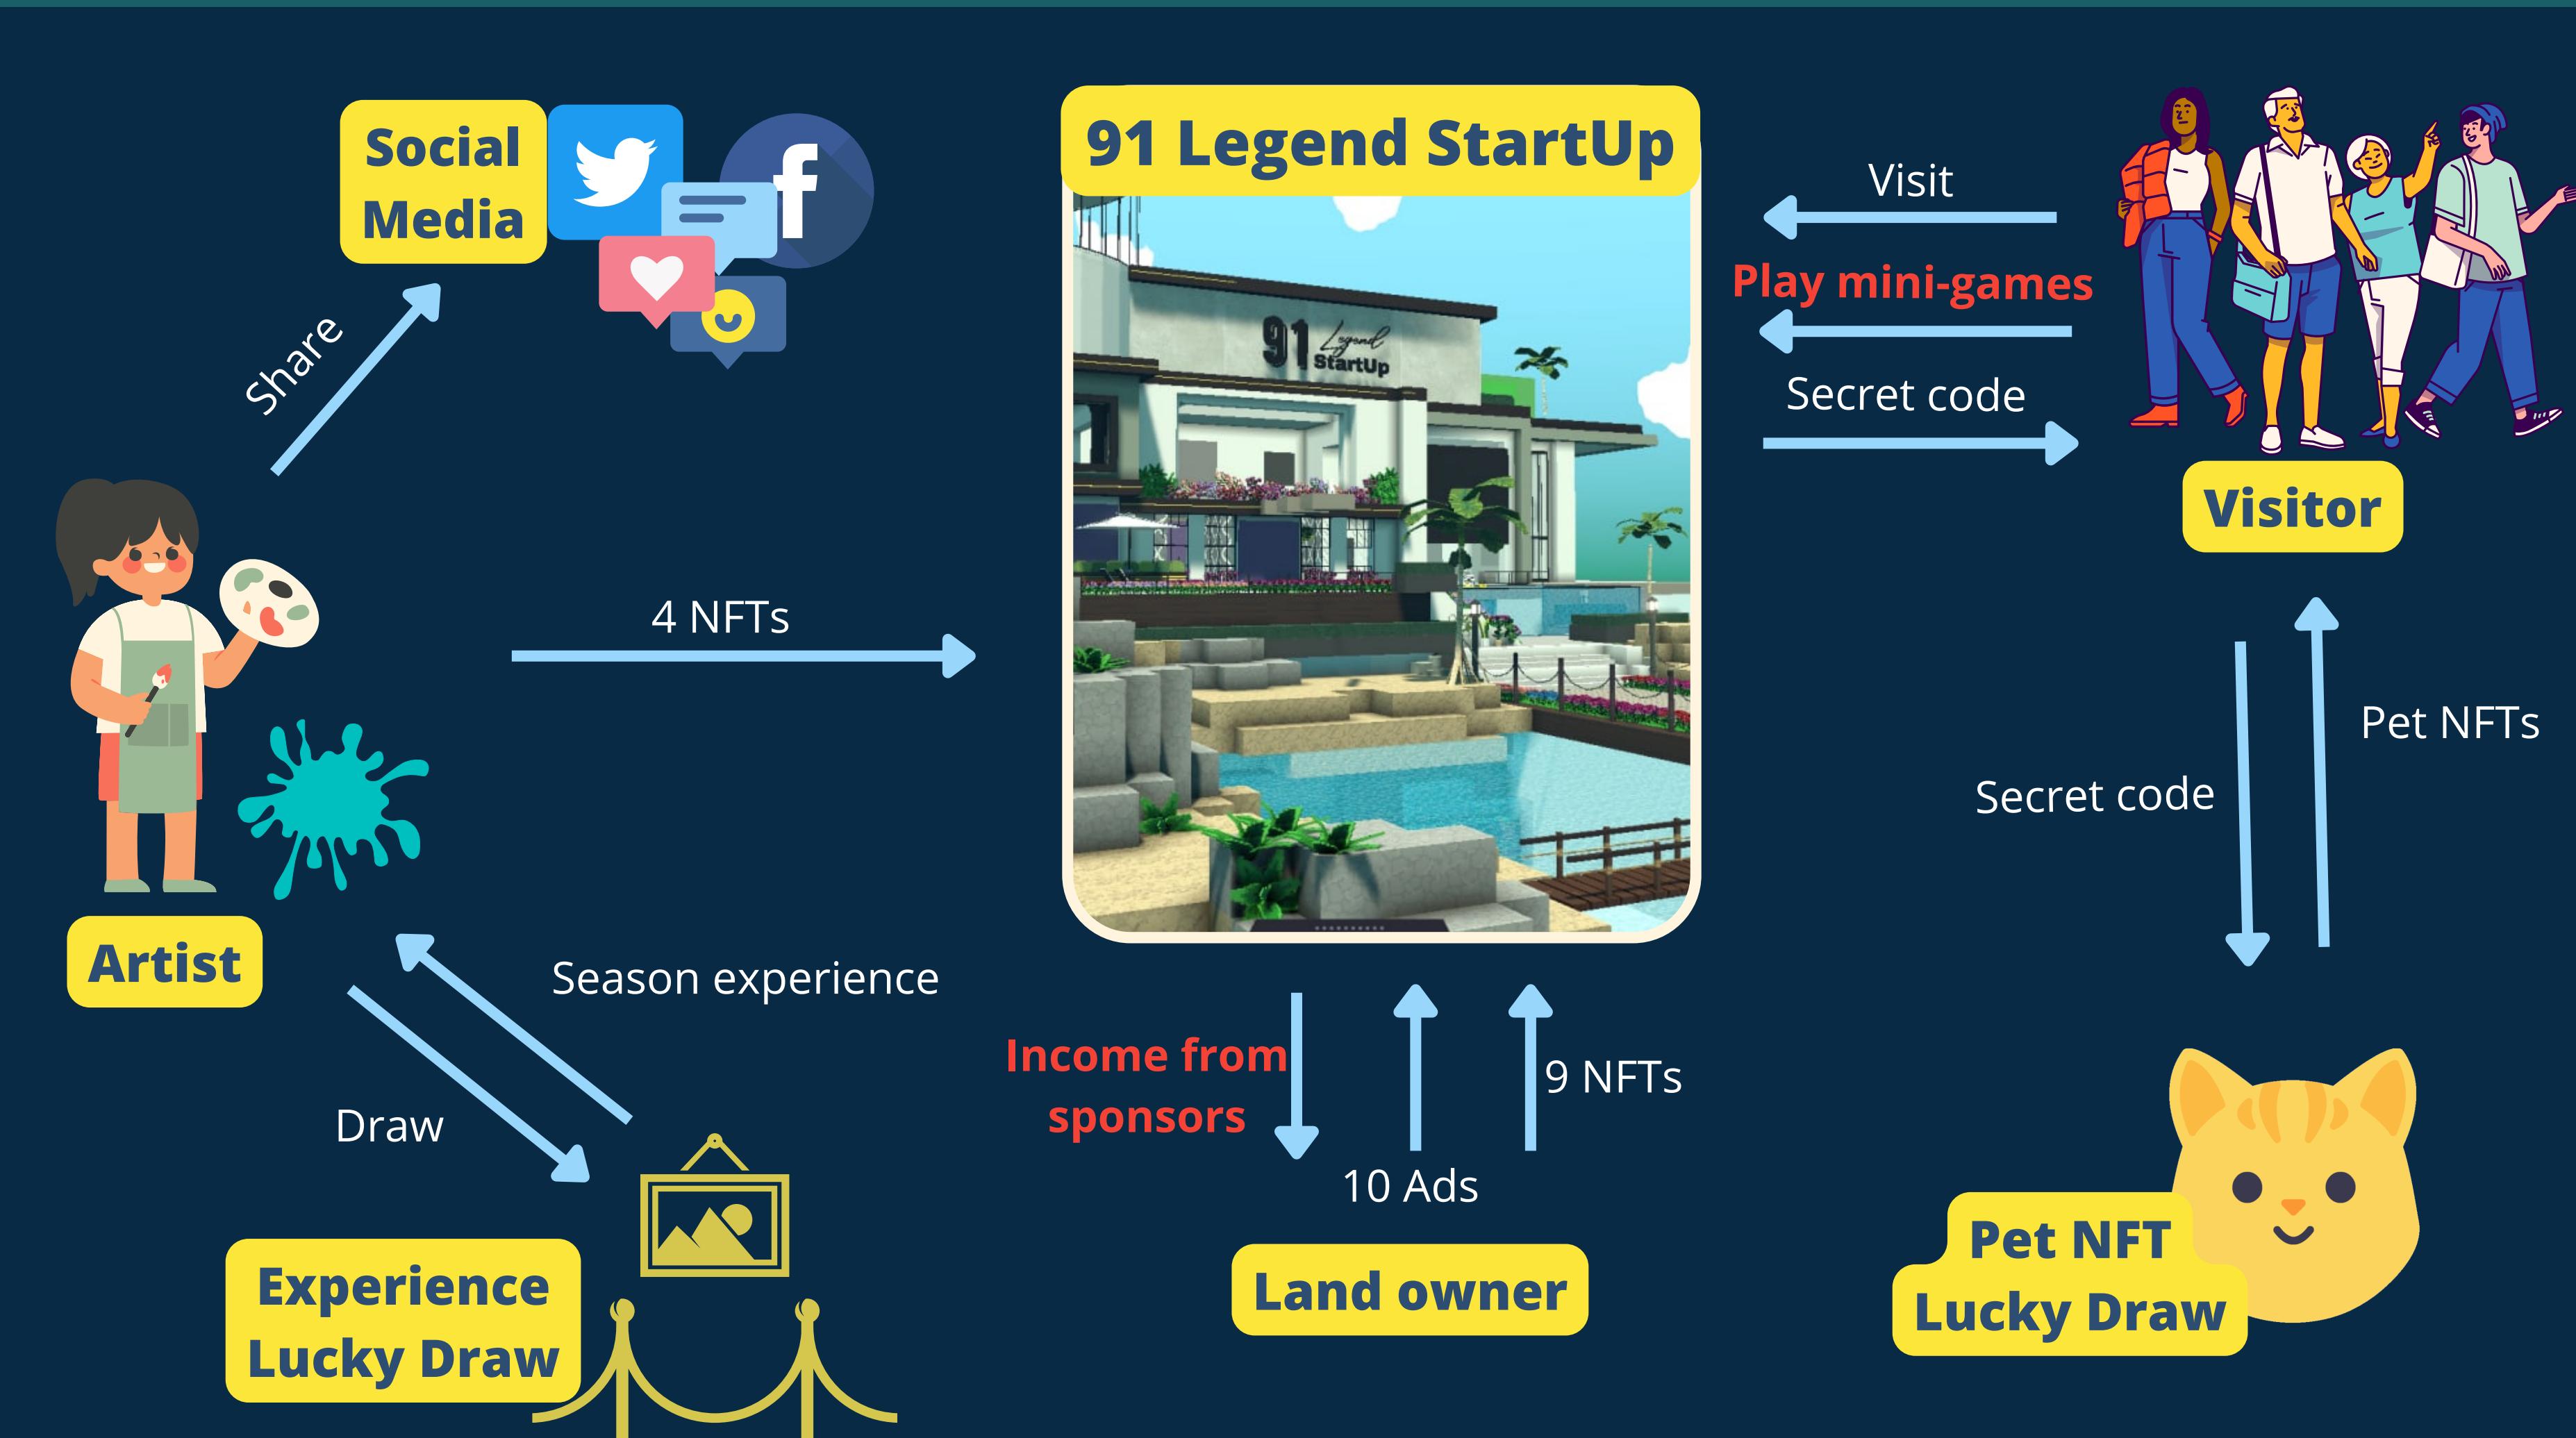

- Wants to promote his/her artwork
- Have no LAND
- No skill in building a gallery

Solutions

- Having a place to display their NFTs
- Doesn't have to own or rent any LAND
- Doesn't need skills to build a gallery

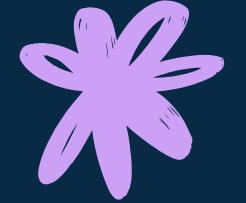

To every problem; there is always a solution.

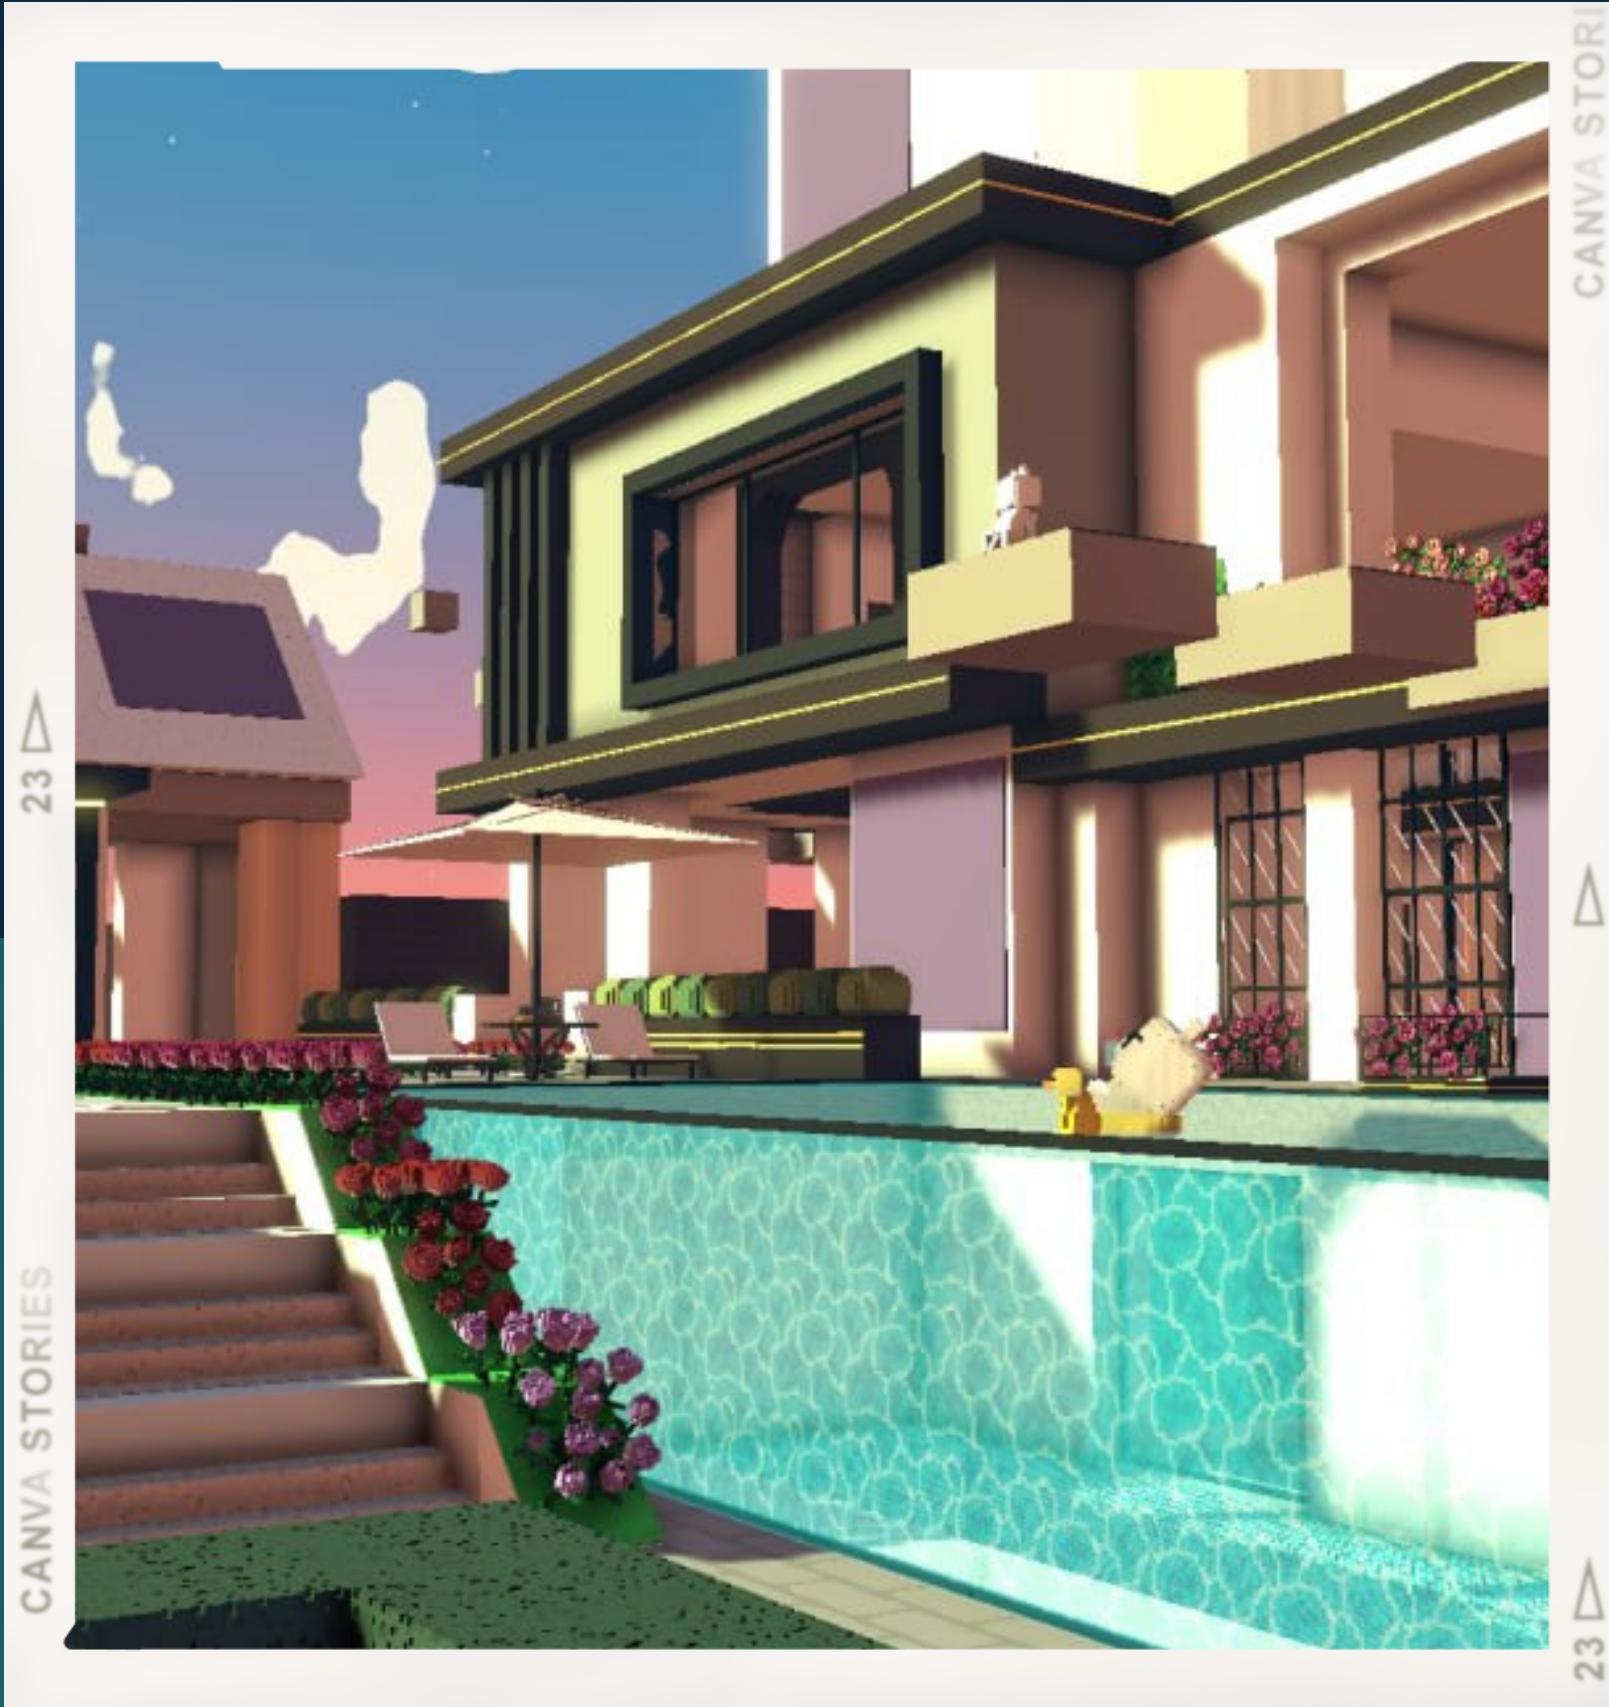

Project Overview

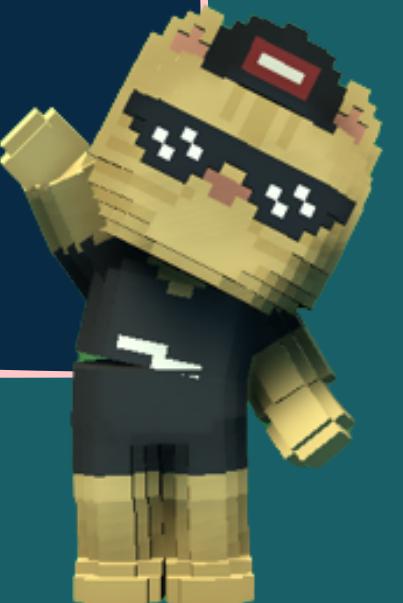

- There is a total of 9 zones. (zone 1-9)
- There are a total of 91 NFT places.
- Each zone exhibits 10 NFTs
 - 8 spots will be for the public
 - 1 spot for the Landowner
 - 1 big spot for the sponsor or moderator choice
- One grand NFT at the entrance (sponsor or moderators choice)

Project Overview

- ✿ The duration of each season is 4 months.
- ✿ Every new season we will accept new NFTs and make a new experience that will help the gallery to become consistent. After each season, the NFT gallery experience will be given away to a lucky participant in that season.

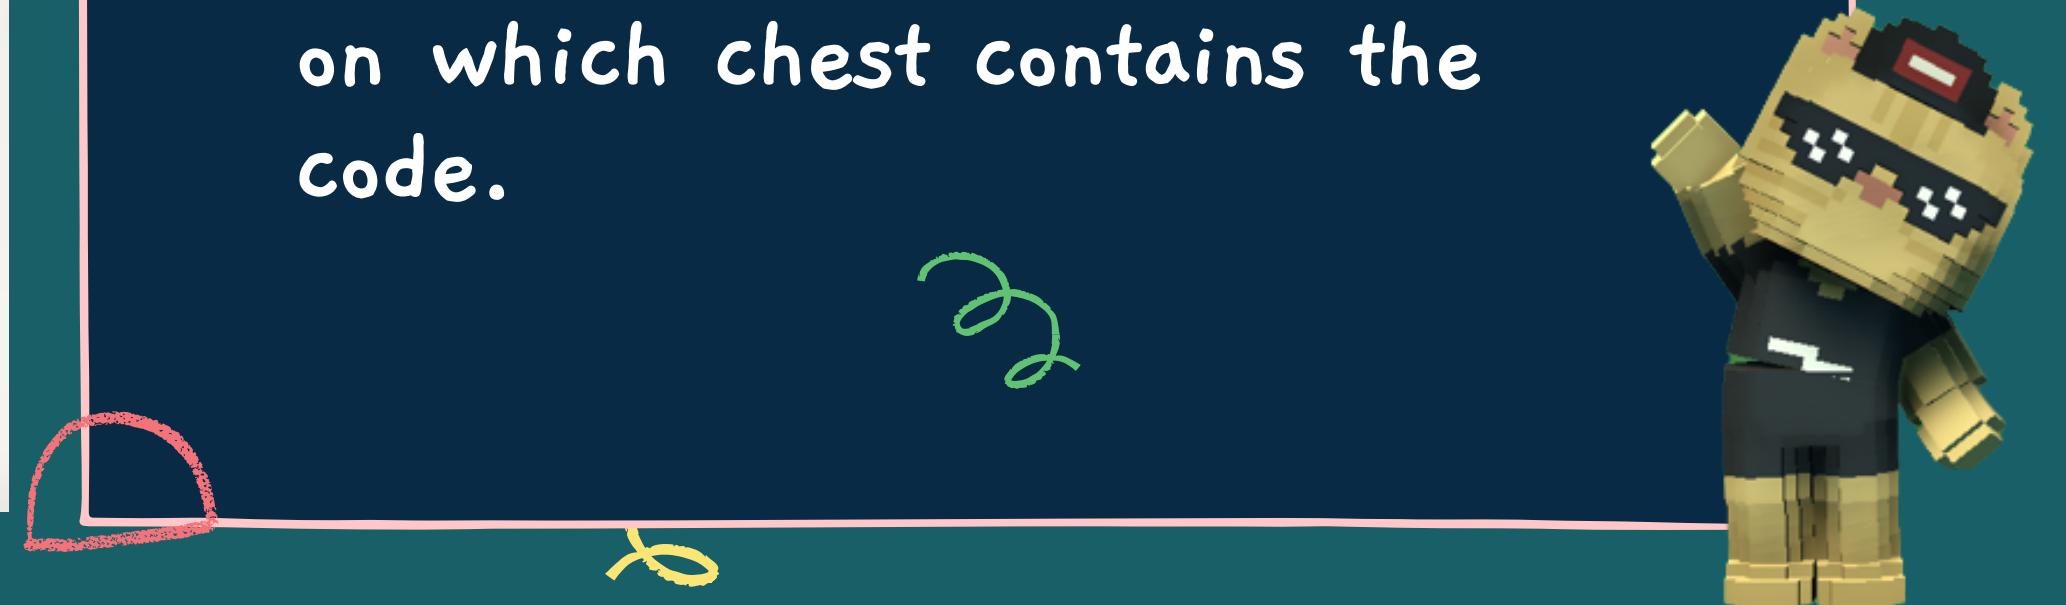

Fun mini-games

Zone 1:

This zone has a bunch of chests, but there is only one that will give you the code.

Test your luck and see if you get the code from the chest on your first try! There is a hint on which chest contains the code.

Fun mini-games

Zone 2:

What's that weird hole in the wall? Oh, there is a beaver?! It looks like I need a ladder to get up there.

That's right, in zone 2, you need to find a ladder to receive the code from our wise old beaver in the wall.

Fun mini-games

Zone 3:

A combination of a cafe and parkour.

Once you order your coffee, hot chocolate, or juice, you can try out the parkour on top of the cafe!

If you manage to complete the parkour, you will receive the code from the parkour cat!

Fun mini-games

Zone 4:

In zone four, we have two floors, both of which are full of beautiful NFTs, but there's a twist. *audible gasp* A poor cat stuck in a rusty cage on the second floor! Quick!

Find the key to set the cat free! Who knows, maybe the cat will reward you with a code.

Fun mini-games

Zone 5:

Who was responsible for this!?
There is a missing glass
panel, but something tells me
there is a spare part to fix it.

Try riding the elevator down
to the first floor and look
around for the missing piece
of glass. If you're quick, you
might get rewarded with the
code.

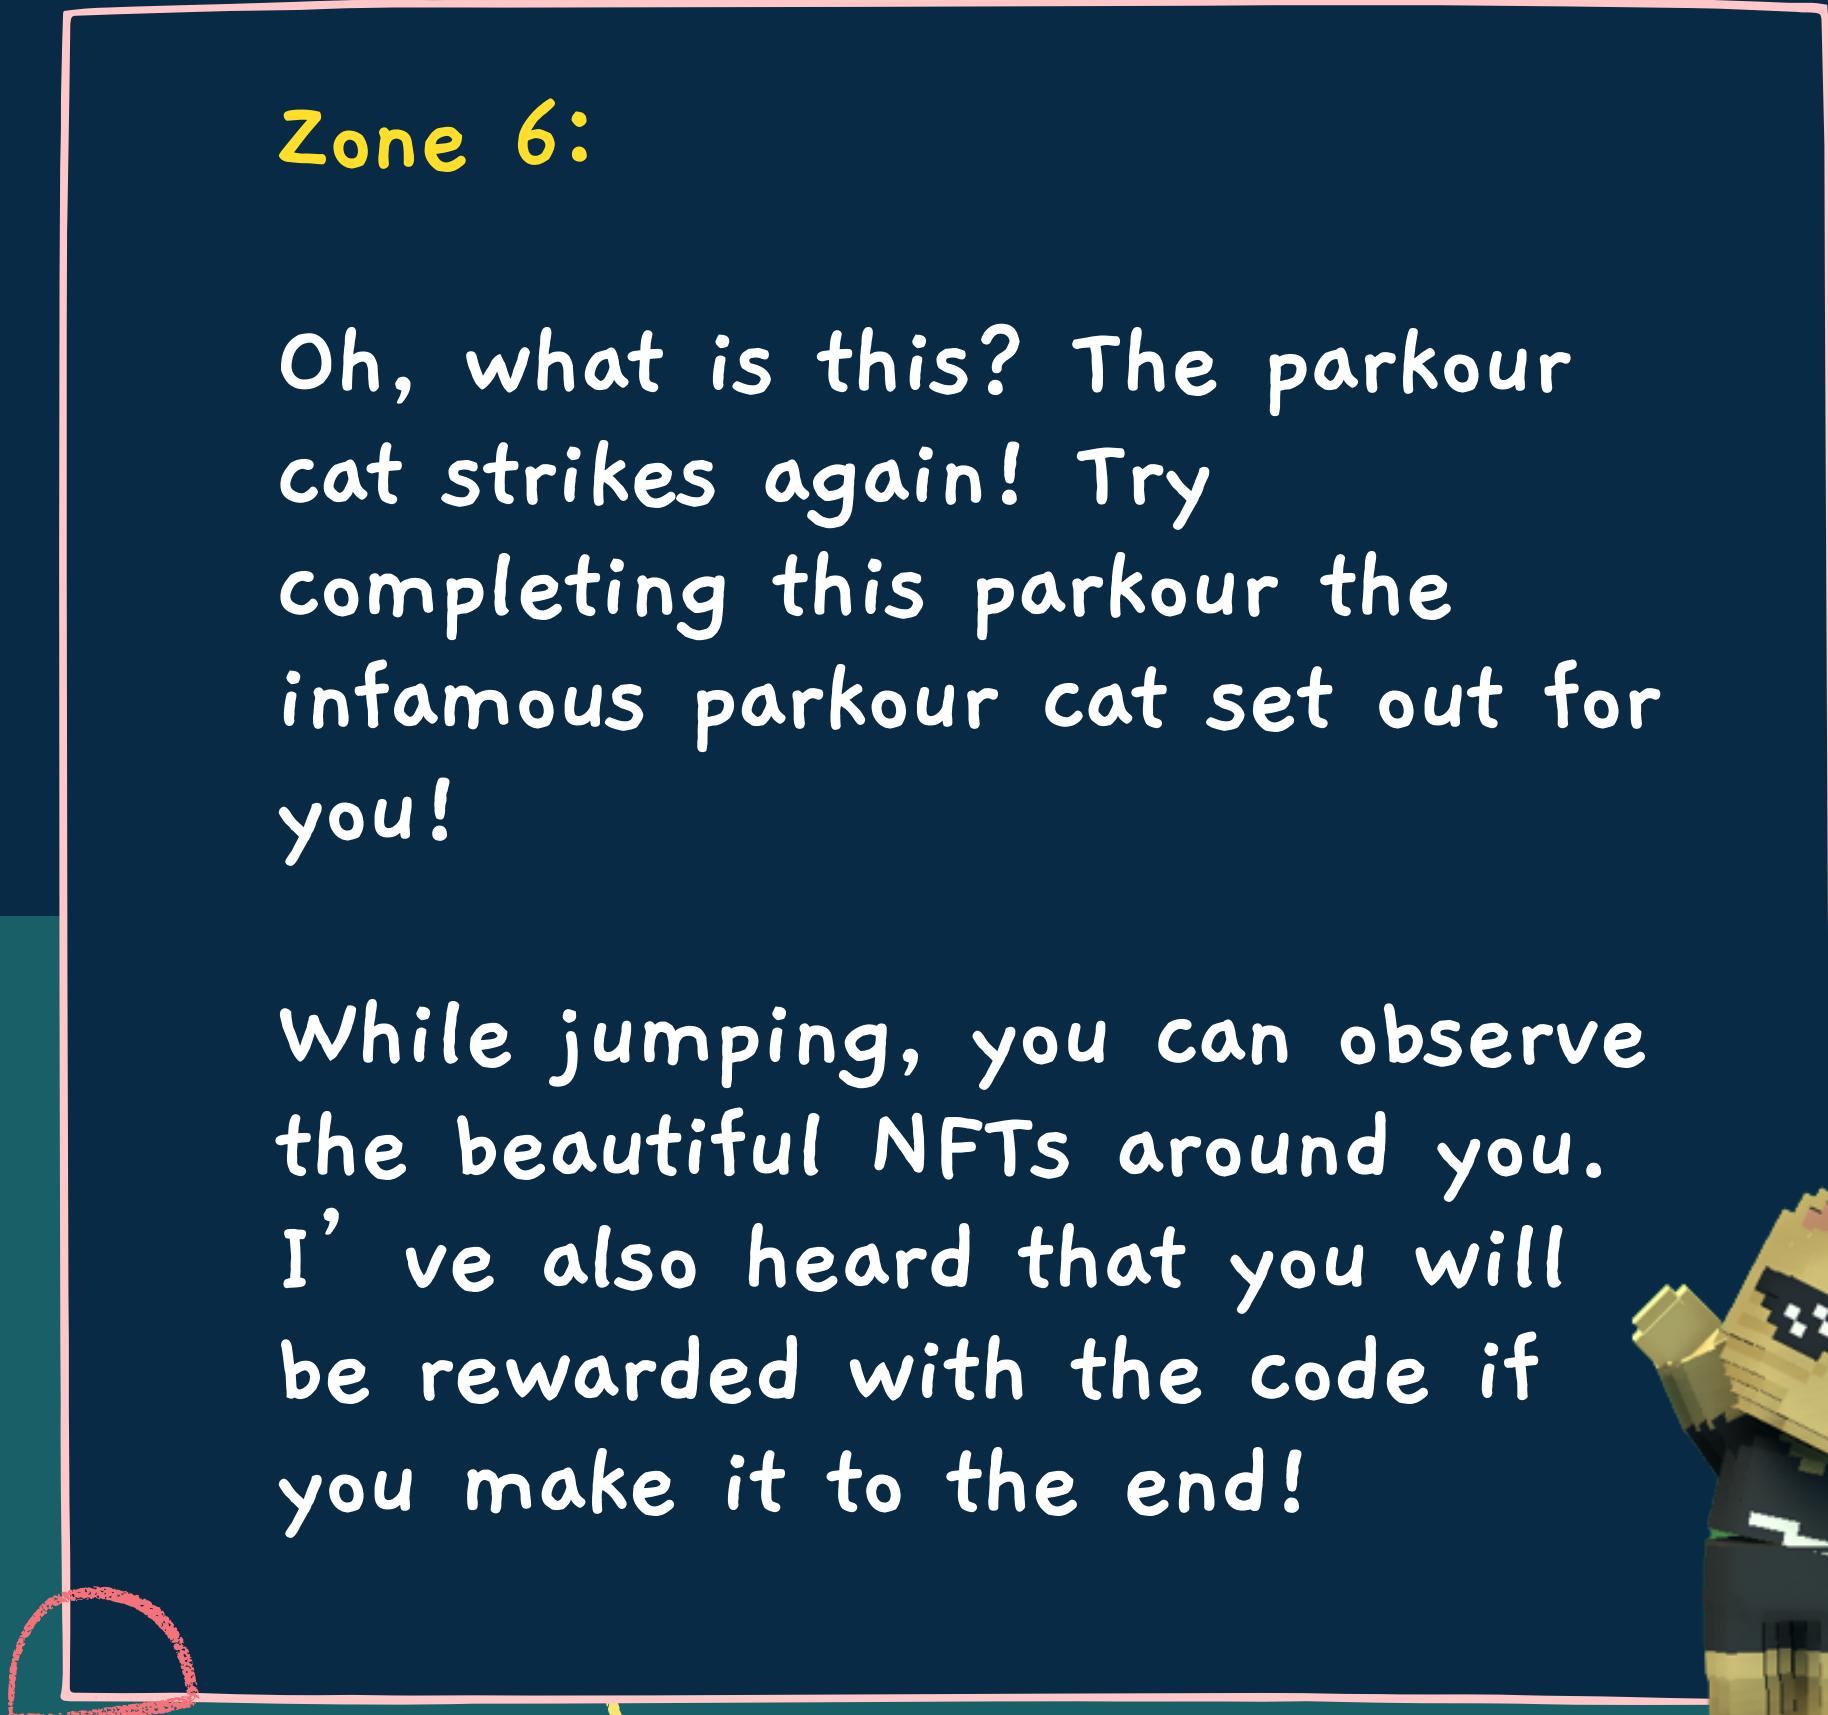

Fun mini-games

Zone 6:

Oh, what is this? The parkour cat strikes again! Try completing this parkour the infamous parkour cat set out for you!

While jumping, you can observe the beautiful NFTs around you. I've also heard that you will be rewarded with the code if you make it to the end!

Fun mini-games

Zone 7:

The first zone that requires you to activate your brain! There are three levers, and you need to flip them until it's correct.

But keep in mind there is only one right combination! If you need guidance, go over to the cat in the corner.

Fun mini-games

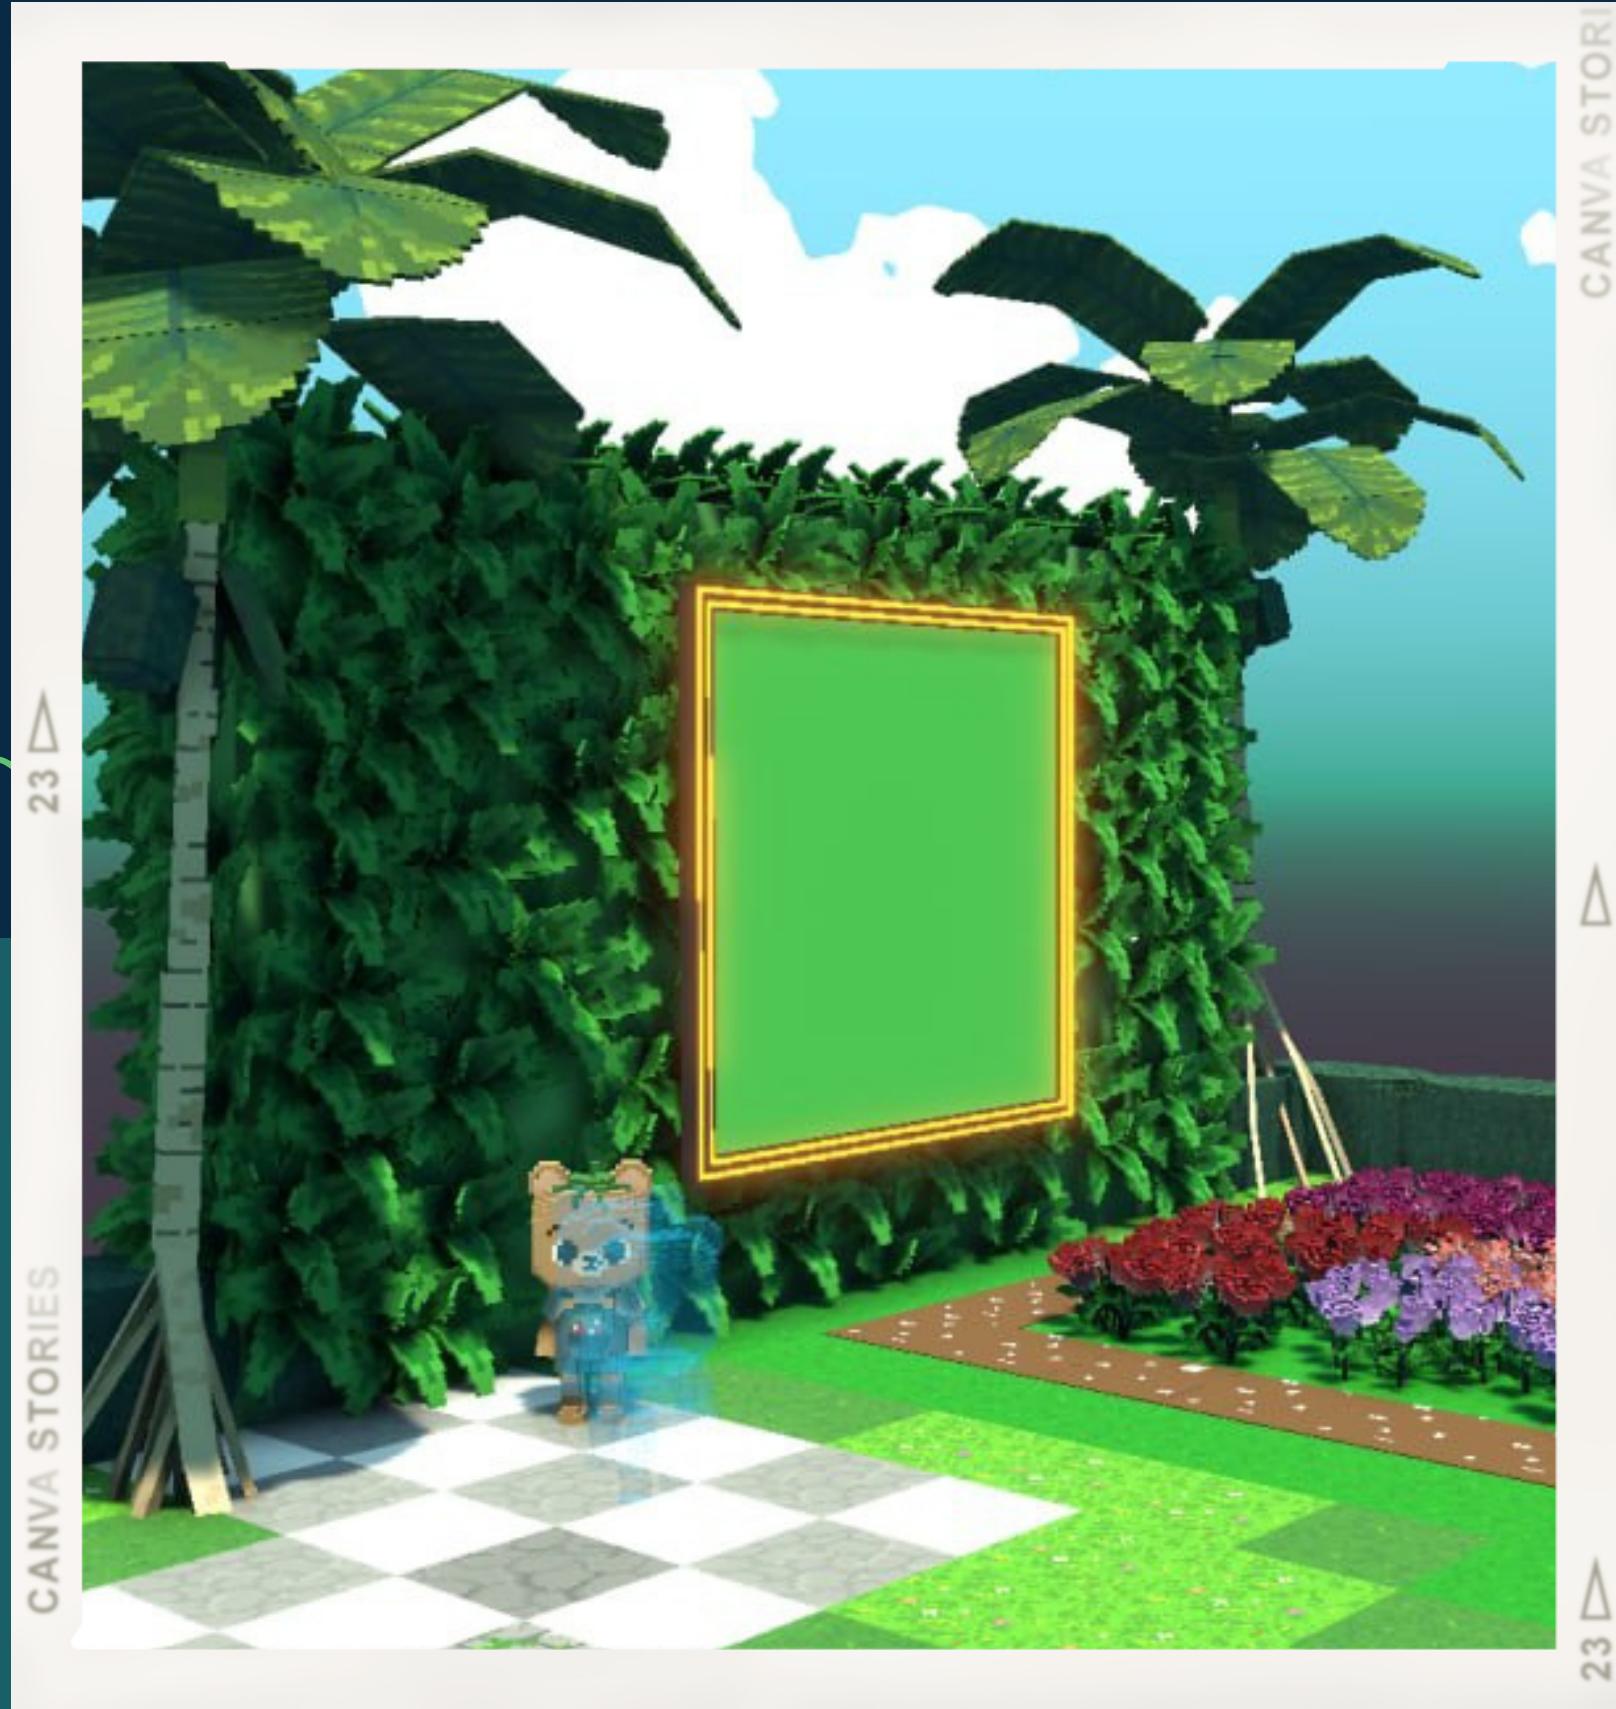

Zone 8:

It holds a special place in my heart because it reminds me of 1st grade. In this zone, we have to count how many NFTs are displayed here and then subtract the sponsor NFT(s).

Then you have to go to Coding For Kids and tell him how many NFTs there are, not including the sponsor, and since he is kind, generous, and loving, he will give you the code in return.

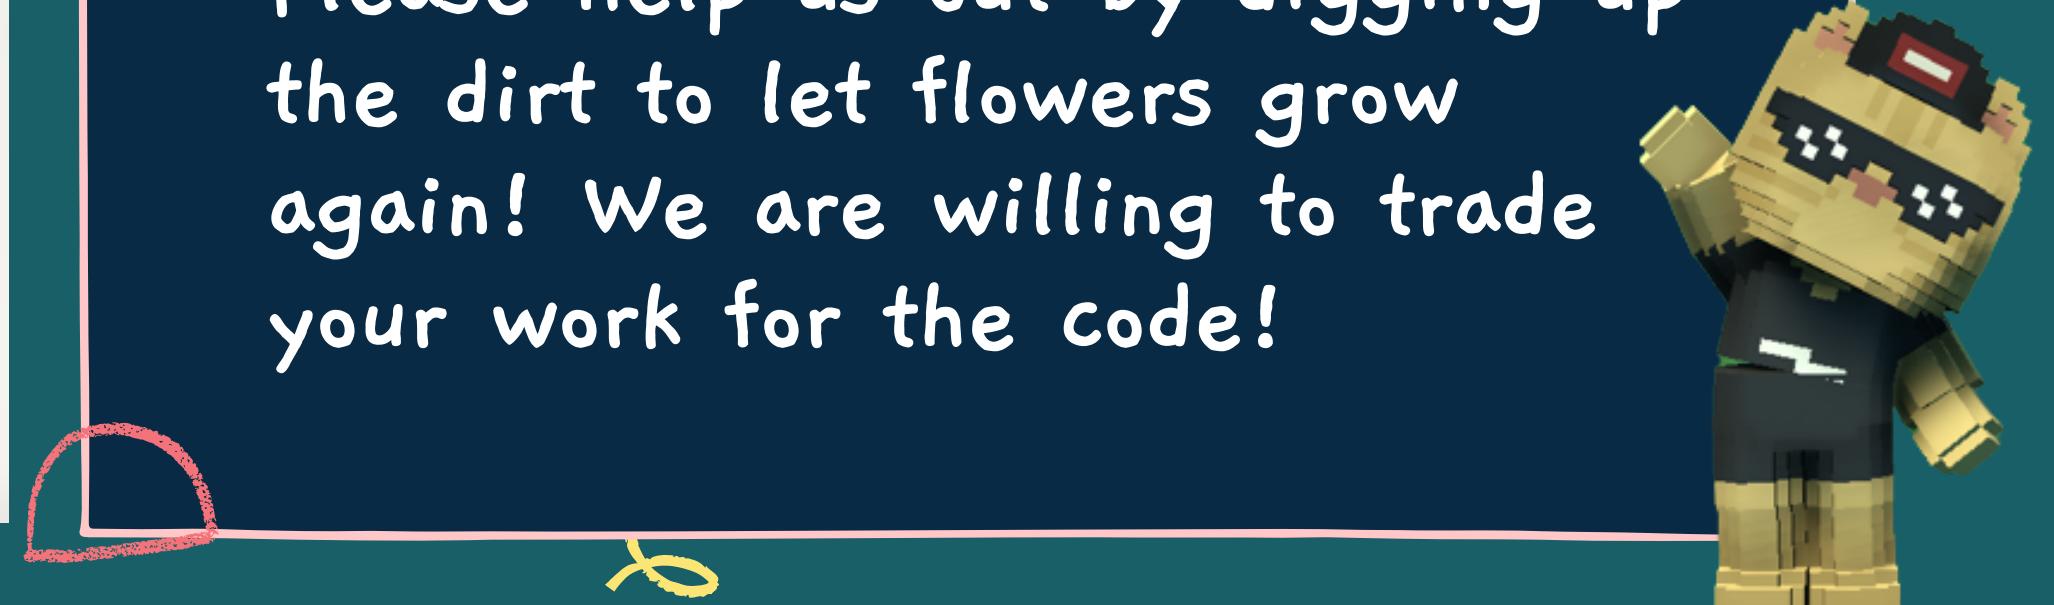

Fun mini-games

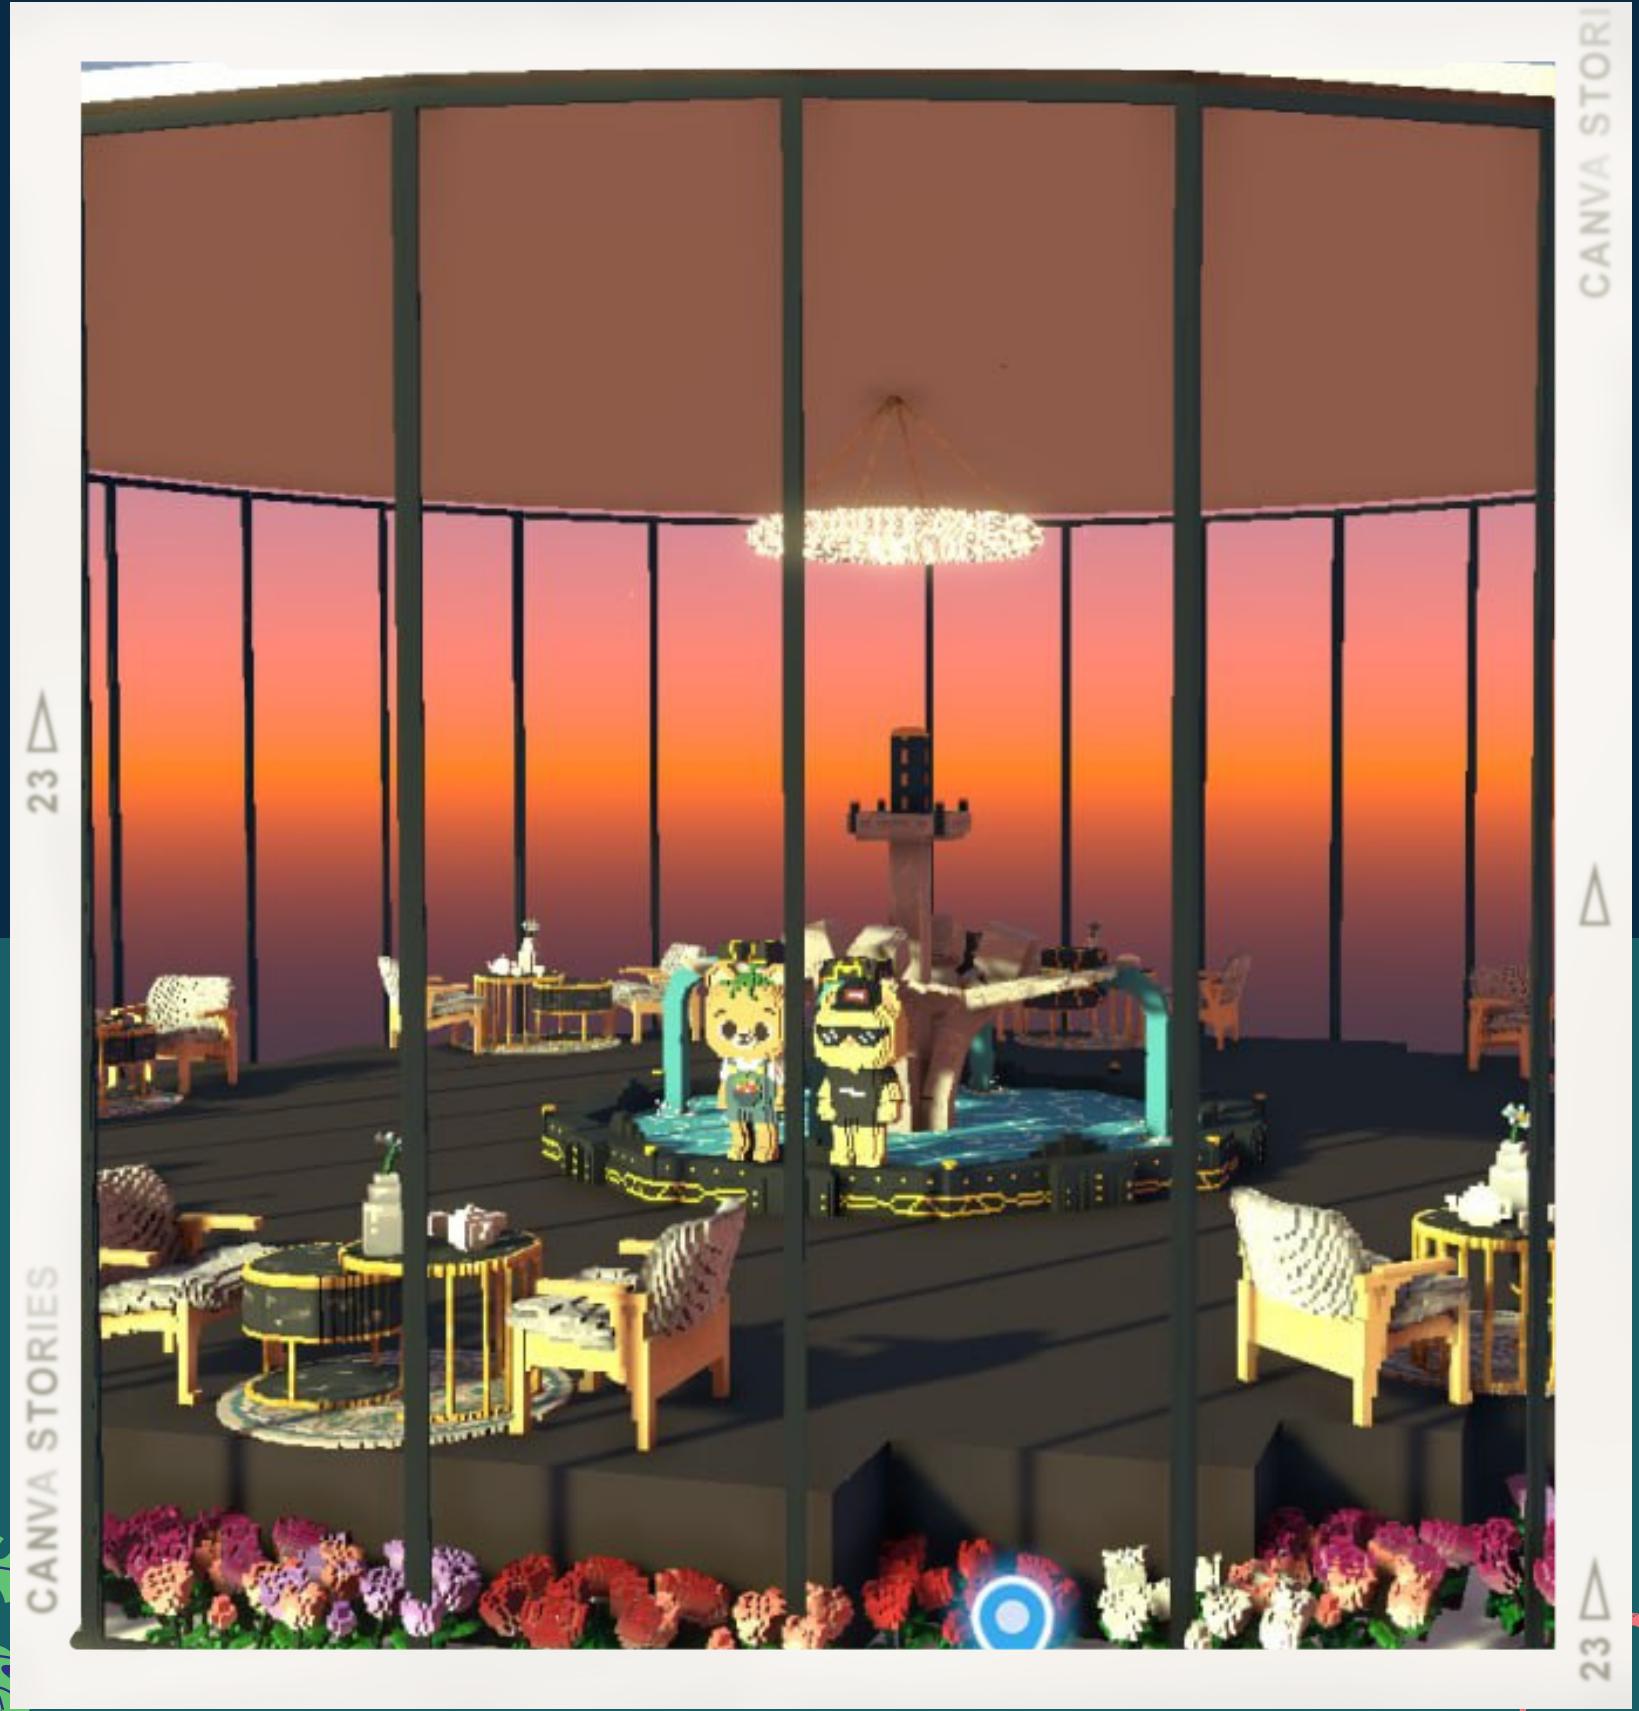

Zone 9:

We made this zone for all the farmers in the metaverse! No one has been up here to the garden for many years now, and the dirt is clogging the stream! Quick!

Please help us out by digging up the dirt to let flowers grow again! We are willing to trade your work for the code!

Project Agreement

- * Artists will be selected each season, following the first-come, first-serve basis.
- * At least ONCE a WEEK, the artists have to tweet their NFT displayed on our gallery.

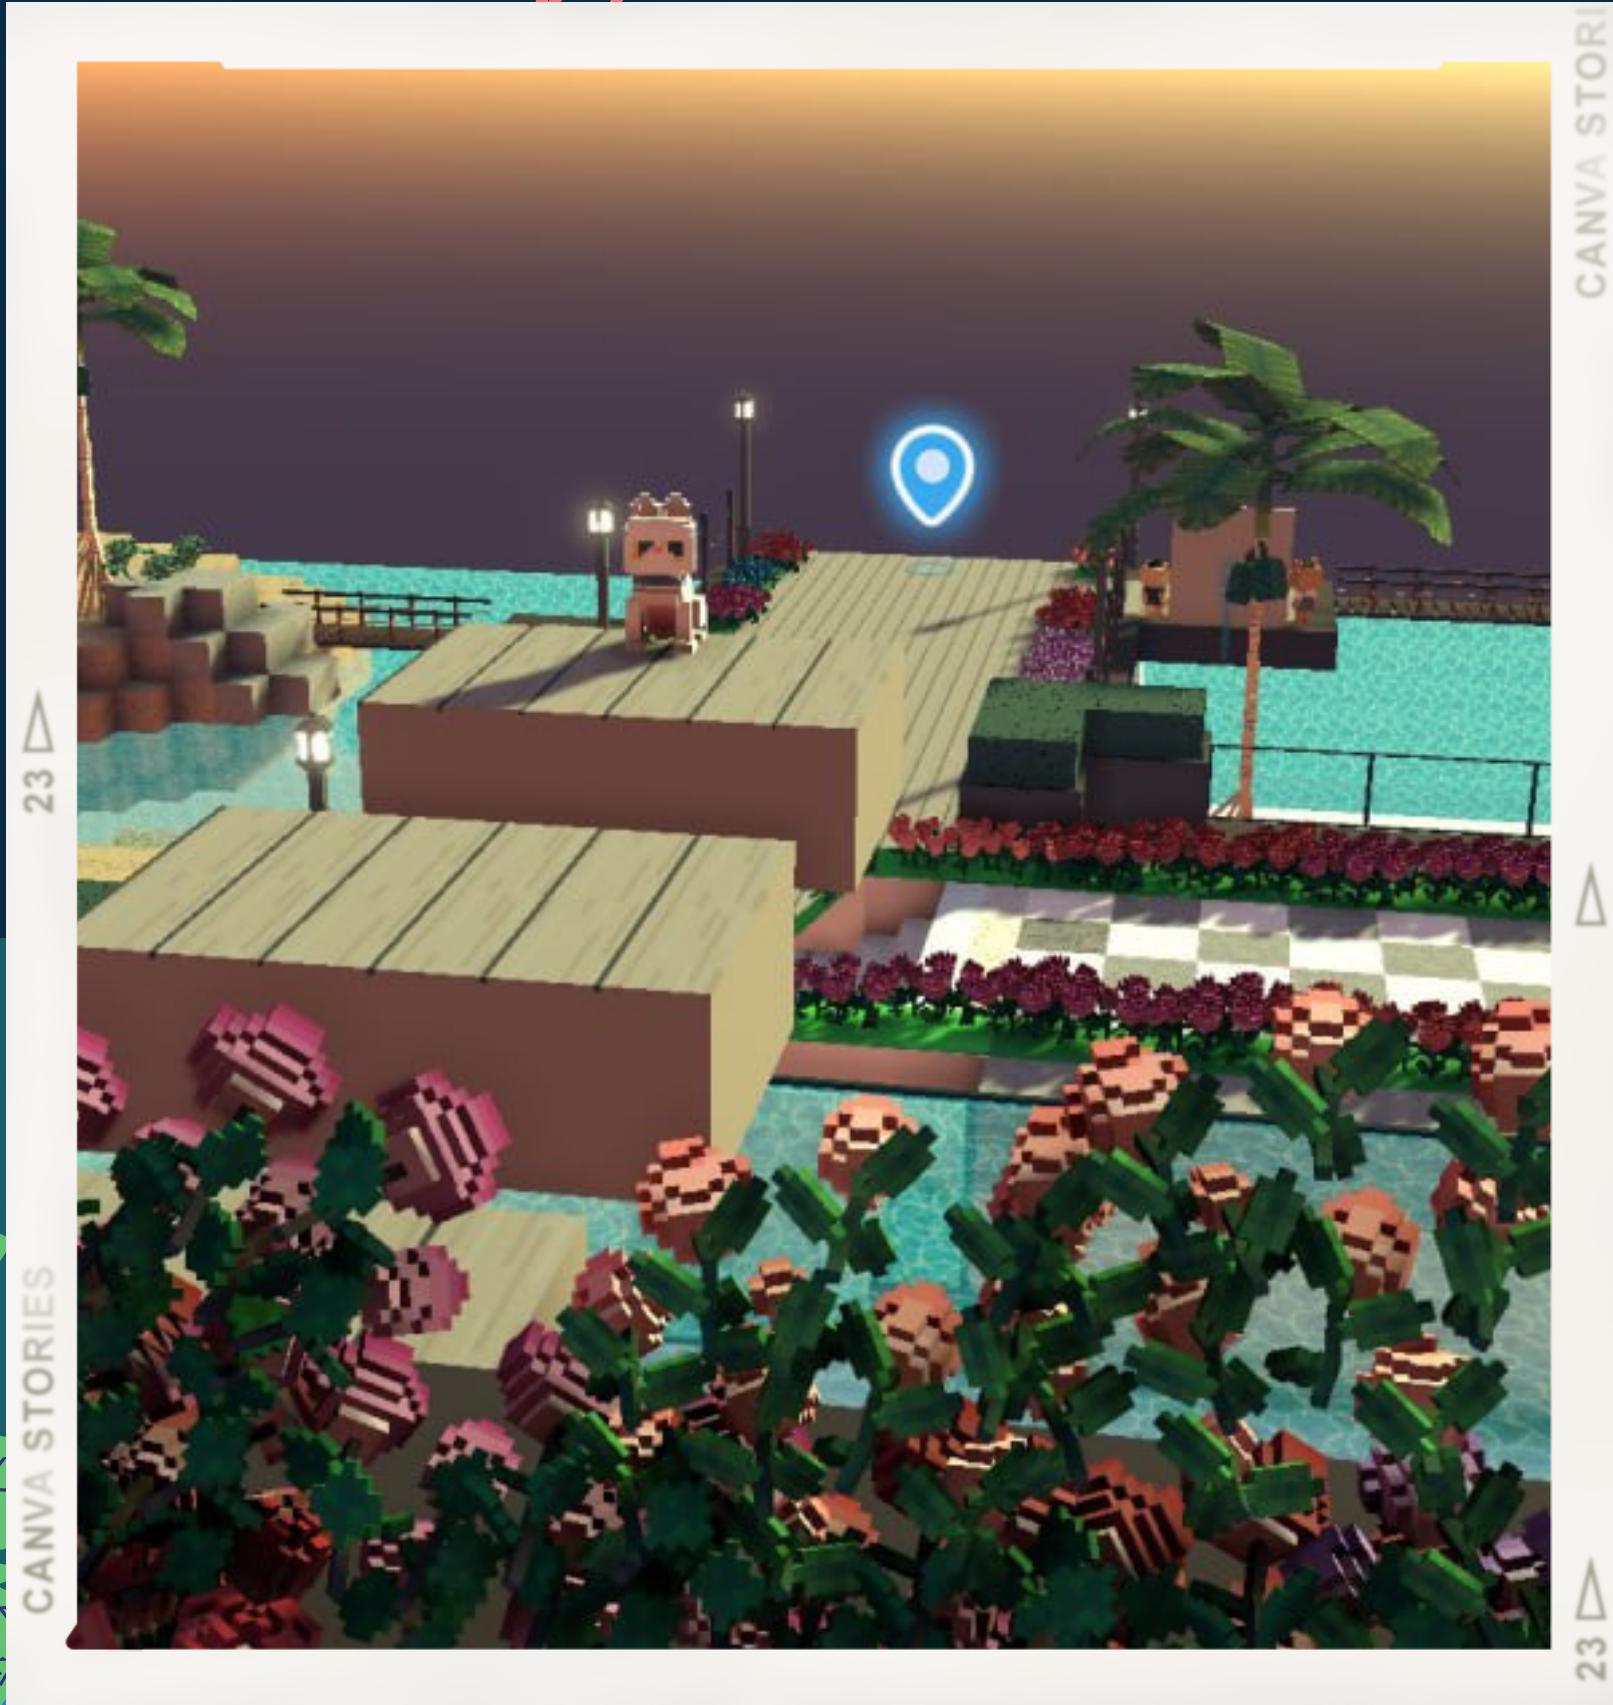

Why an INNOVATIVE project!⚡

- * We are not just an old-school gallery. Both artists and visitors can have a Metaverse experience.
- * We are not just an ordinary gallery in the Metaverse. But we have 9 fun mini-games in the gallery.
- * We are not just a gallery in the Metaverse with mini-games. But we give away cute CAT NFTs and a gallery design to visitors and artists, respectively.

Future Plan

- ✿ Our gallery theme design will be changed every season (space, forest, fun park, etc.)
- ✿ CAT NFTs given away to visitors will be their companionship whenever the owners revisit our gallery. (They can play and feed with their CAT NFTs.)

Our Team

We are more than happy to pitch for you if you have any questions.

Gemmy Somboontham
Gameplay Engineer

EXPERIENCES

- Certified from Sandbox Bootcamp
- Codes and programs in Python and The Sandbox

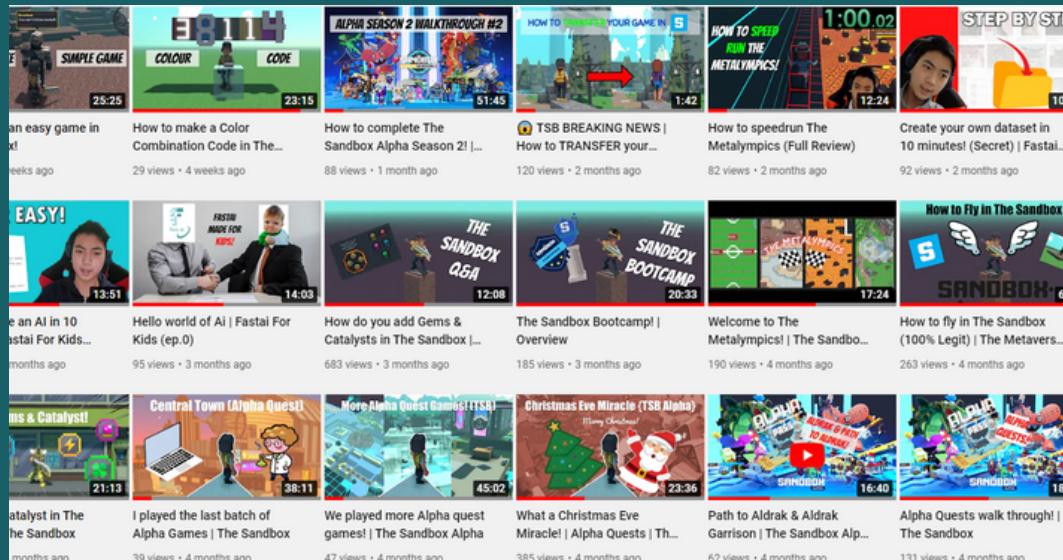

Affy Somboontham
Metaverse Architect

EXPERIENCES

- Certified from Sandbox Bootcamp
- Creates buildings and animated assets in The Sandbox, makes NFTs and has experience in Sketch Up.
